**ADDITIONAL COMMENTS EITHER POSITIVE OR NEGATIVE AND THANK YOU FOR COMPLETING THIS FORM!**

I must tell you, Beverly, that when I walk Boomer down the street people literally stop in their tracks (get out of their cars, stop biking, etc.) and make pictures of Boomer and tell us how beautiful Boomer is.

Boomer turned out to be extremely loyal family member. He is very intuitive, good natured - a little bit shy at times around larger and more aggressive dogs. He is very polite - every time after getting a meal, he comes to whoever served it to him and licks the persons hand and wags his tail - we figured out that this is Boomer's way of saying thank you.

Boomer absolutely is in love with my husband and this feeling is mutual. He loves playing catch with my husband and also my husband and the dog play somekind of their own game which is a mix between wrestling, running , growling and chasing - they both seem to enjoy this activity a lot.

We came to a conclusion after a 1.5 years with Boomer that he is an absolutely perfect dog - very smart, playful, loyal, protective, polite, gentle, delicate, good natured, alert and active, but also patient....absolutely loves to be with people and to go places with his family. He loves to be part of the pack. Most happy when the whole family is together and when we go on an adventure with kids - boating, or camping or biking, etc.... Boomer has completely integrated himself in our famiily and also developed very special relationships with friends and relatives who enjoy spending time with him. Interestingly, we tend to think that Boomer is more into people than into other dogs (except may be other Labradoodles) - when other dogs are around Boomer plays with them and then hangs around people for the rest of the evening...

Also, Boomer, has all of the "doggy characteristics and loves doing stuff that all dogs fo - chases squirrels, cats, barks sometimes at strangers, extremely intuitive and knows which strangers are OK and which are not (keys into our emotions, I guess).

A couple of other comments that you might find helpful - Boomer still has an undercoat

which we brush out every week, but occasionally when his hair is not trimmed for several months my husband gets allergic and that tells us that it's time to trim his (Boomer's) coat shorter. But most of the time Boomer does not trigger allergies.

And also we noticed that Boomer is a little woosy around dogs at the dog park. Mostly around type A dogs (more robust and aggressive types, if you know what I mean).

Other than these two last comments - Boomer is perfect and we love him with all our hearts.
