ADDITIONAL COMMENTS ARE MOST WELCOME (GOOD OR BAD)

___I love the web site It was full of information I actually spent hours reading everything over and over. It was really exciting when a couple would go to honeymoon cove and then when their babies were born. At one point there was a video about grooming but I couldn't find it when I needed to check it out again. I wasn't prepared for the long wait. I know it is impossible to make an estimate in months because it is such a fluid situation but if I would have know how many were waiting for a standard in front of me I would have been able to feel like the time was getting closer. I would have still waited but I think it would have made it easier. Not knowing how many others were waiting every time a litter was born I was sure that one of them would be mine so there was one disappointment after another. As it turned out Shadow was worth waiting for! ___I needed to confirm that Shadow had a micro chip for travel to Hawaii. My vet could not find it and he did use the

international chip finder. (wrong terminology). I had to have another chip placed. No big deal but wanted to let you know.
