Auzzie continues to be an amazing dog. Very intelligent, always wants to please us (and he really does!), and a very sweet dog. I have never met a dog with a sweeter disposition than Auzzie! Beverly selected the perfect labradoodle for us!

In the past 3 years he has developed some wart-like growths that have had to be removed under anesthesia. So far, he has had roughly 30 of these growths removed, and now has another 10+ that will also have to be removed once again. Unfortunately, this has proven to be very costly. No one seems to know much about these growths, although our vet said they have something to do with sebaceous glands, but they are not pimples. At some point, when they get large enough, they "explode" and are bloody with black spots. The doctor said this is somewhat common with poodle breeds.

That aside, I would recommend Rutland Manor to anyone who would consider adding a Labradoodle to their household! These dogs are so special!
