My dog is mildly intuitive

How have your expectations been met?

Better than expected

How Would You Rate Rutland Manor's Customer Service?

Quite caring

Would You be Likely to Recommend Rutland Manor?

Yes, I would definitely recommend Rutland Manor

ADDITIONAL COMMENTS EITHER POSITIVE OR NEGATIVE AND THANK YOU FOR COMPLETING THIS FORM!

We LOVE our dog! She is very well-mannered and extremely gentle. She is very attached to us and does not show much affection to other people (which only shows her devotion to us). She can get very anxious when she's left alone at home or at the pet sitter's. She shows no aggressiveness and is gentle with babies, children, other dogs and even toys. She is easily scared especially of loud noises and thunder. She triggers my son's allergies because she's very "mouthy" and loves to lick and carry toys around the house. She has urinary incontinence and "leaks" when she goes into a deep sleep. Our vet has her on Diethylstilbestero which we give to her every 7 - 10 days. Could this be because she was neutered so young; before all her muscles and hormones got a chance to mature?

After having her, we would never think of owning a shedding dog. If we were to get another dog, we would definitely choose an Australian Labradoodle - we love their disposition. We are so very happy that Chika is a part of our family and we love her dearly!
