## GERMANY 2018 INFORMATION PACK

Hello, and thank you for Inquiring about a Rutlands puppy, the most sought after in the world. This Information Pack covers practical things you need to know, such as pricing of puppies & travel details. But we also understand that the decision you are about to make is an emotional one which will impact you and your family for many years to come. So we hope this info pack also conveys the dedication and love that permeates the way we keep our dogs, raise their puppies, and the commitment we feel towards our puppies' families.

### PRACTICAL THINGS FIRST

**QUARANTINE** - There is no quarantine for puppies entering the United States from Australia. You simply pick up your new family member from the airport and take home.

**IS SHIPPING STRESSFUL FOR THE PUPPY?** – Not the way we do it.

Your puppy is thoroughly pre-conditioned for the journey. Check our website for tons of feedback here <http://www.rutlandmanor.com/travel---worried-new.html>

Or ask the question on our FB page. <https://www.facebook.com/Cobberdogs>

Your puppy travels in an individual travel kennel approved by IPATA and with plenty of room to lie down and stretch out for comfortable sleeping. We only use international airlines which provide air conditioned comfort for live creatures, and not travel as freight.

You keep the travel kennel and its cost is included in your shipping price.

### ADOPTION PROCESS FROM GO TO WOA

<http://www.allaboutaustraliancobberdogs.org/process.html>

**TRAVEL cost** is subject to change for reasons outside of our control and may be less when more than three puppies are on the one waybill (each has his/her own individual travel kennel) Travel cost includes Government Export documentation, Government health inspection by Aqis licenced veterinarian, travel kennel (which you keep) as well as the actual flight. The shipping company will invoice you directly for travel.

There is no quarantine for puppies entering Germany from Australia. You simply pick up your new family member directly from the airport and take home.

Your puppy is carefully pre-conditioned for the journey to your new home and feedback of puppies arriving rested and cheerful and quite unaffected by their journey has been consistently positive throughout the years. [Travel Stories Here](#)

Your puppy travels in an individual travel kennel approved by IPATA and with plenty of room to lie down and stretch out for comfortable sleeping.

We use PetExpress for shipping and they have taken great care of our puppies and new families for many years. You can see them here:

#### PUPPIES ENTER GERMANY FROM AUSTRALIA UNDER THE PET PASSPORT SYSTEM

Germany does not quarantine healthy pets who meet the following requirements:

Your dog or cat must have an ISO **pet microchip** inserted and then be vaccinated for rabies and various other diseases at least 21 days prior to travel and not more than one year prior to travel. If your animal has been vaccinated before it was fitted with a microchip, it will have to be vaccinated again after the microchip has been inserted. (**We take care of this for you and it is included in the price**)

Governmental Authority in Australia should endorse the forms. A copy of the Rabies Certificate should also be included. This completes the dog passport for Germany. **We arrange for AQIS to do this in Australia and the cost is included in the travel costs**

**One of the first questions you may ask, is “it is a long way from Australia, wouldn’t a puppy be traumatized by the travel?”**

Our puppies are pre-conditioned for their big travel adventure and the feedback we get is always the same “our puppy arrived so fresh and happy that it was as if he only came from around the corner and his tail never stopped wagging!” There are many reasons for this including the wonderful temperament on our puppies and the careful conditioning and socialization they have here with us in preparation. Also, puppies spend a lot of their time sleeping and they travel in air conditioned comfort with enough room in their travel crate to lie down and stretch out for a good sleep. Not like we humans, who have to sit cramped in a small seat on air travel!

If you have other questions after you have read through this information pack, please feel very welcome to ask.

Your Rutland Manor puppy is registered with the [Master Dog Breeders and Associates](#) (MDBA) a global breed Registry for only Pure Breed dogs.

You are automatically eligible for MDBA membership of the Smart Dog Owner’s Club and you will receive an MDBA Certified Pedigree for your puppy when processed.

If you have any questions please feel welcome to contact us by email or on the phone via our Facebook page

Warm wishes,

Beverley and the Rutlands Team
